Subject Index

A
A Cell, α Adrenergic Stimulation, Nutritional State 568
– Insulin Therapy 452
1-^{14}C-Acetate, Incorporation in Lipoproteins 415
Acetazolamide, Hypercalcemia 670
Acetylcholine, Effects on Secretion from Perfused Rat Pancreas 356
Acetylsalicylic Acid, Insulin Secretion in Hamster Islets 437
– – Pancreatic Hormone Response 508
Achalasia, Effect of Somatostatin on Lower Esophageal Sphincter Pressure and Serum Gastrin 26
Aclatonium Napadisilate, Effects on Secretion from Perfused Rat Pancreas 356
Acromegaly, Glucose Intolerance by Bromocriptine Treatment 57
ACTH-Cells, Protein-Calorie Malnutrition 205
– Dexamethasone 547
– Glucagon Administration 386
– Renal Compensatory Hypertrophy 487
– Response to TRH and SRIF, Nelson's Syndrome 164
Adenylate Cyclase, α-Adrenergic Agonists 475
– – Human Fat Cell Sodium Ions 556
– – Isolated Islets 117
Adipocytes, α_2-Adrenoceptors 257
– Insulin Action 638
Adipose Tissue, Adenylate Cyclase 475
– – Adrenal Medullectomy 575
Adrenal Cells, Rat Hypersensitivity after Hypophysectomy 620
Adrenalectomy, Cardiac c-AMP Response to Isoprenaline 207
– Glucagon Binding in Rat Fat Cells 162
– Hypothalamic-Pituitary-Thyroid Axis 317
– Insulin Secretion and Islets Metabolism 287
Adrenal Medullectomy, Hyperglycemia 575
Adrenals, In Vitro Production of Estriol 323
Adrenal Steroidogenesis, Dexamethasone 547
α-Adrenergic Agonists
– – Adenylate Cyclase 475
β-Adrenergic Blockade
– – Effects on IRI, FFA and IRG 18
α-Adrenergic Stimulation
– – Mobilized Calcium 133
α-Adrenoceptors
– A and B Cells 568
α_2-Adrenoceptors
– Lipolysis 257
β-Adrenoceptors
– Adrenalectomy 207
– Hyperkalemia 299
– Lipolysis 257
Adrenocortical cAMP and cGMP Dexamethasone 547
Age, Serum 1,25 Dihydroxylvitamin D 271
Aging, Ornithine Decarboxylase Activity 172
Alanine, Effect on Pancreatic Hormones in Goose 122
– Hepatic Cirrhosis 34
– Hypothyroid Rat 658
– Transamination in Islet Homogenate 405
Aldosterone, 2-Deoxy-D-Glucose 94
– Hypoaldosteronism 432
– Nycthemeral Rhythms in the Ram 320
Aldosterone, 2-Deoxy-D-Glucose 94
– Pregnancy, β-Receptor Agonist Treatment 198
– Release by Angiotensin II, Prostaglandin E_2, Indomethacin 682
Alkaline Phosphatase, Sulfonylurea Treated Diabetics 98
Alpha-Adrenergic Agonists
– – – Adenylate Cyclase 475
– – Stimulation
– – – Mobilized Calcium 133
– Adrenoceptors
– – A and B Cells 568
Alpha-2-Adrenoceptors
– – Lipolysis 257
Alpha-Blockade and Isoproterol
– – – – Effect in Thyroxine-Treated Dogs 101
Altitude, Median High, Hypophyseal-Testicular Function 679
Amenorrhea, Body Weight 142
Amino Acid Composition, Human VIP 28
– Acids, Essential, Thyropathies 596
– – Ethanol-Induced Hyperglycaemia 361
– – I.V. Infusion 122
– – Oral Test 122
– – Plasma, Diabetes, Hypothyroidism 398
b(±)2-Aminobicyclo(2,2,1)Heptane-2-Carboxylic Acid 405
– – Insulin Release 459
Amylase, Acetylcholine, Cholinergic Derivate 356
α-Amylase, Altered Thyroid States 179
Anabolic Steroids, Effect on Lipogenic and Lipolytic Enzymes 52
Androgen Binding, Prostate, Diabetic Rats 237
– Metabolism, Prostate 54
– Receptors, Human Uterine, Danazol 167
– Sensitivity, Prepubertal Castration 191
Androst-4-ene-3,17-dione, In Vitro Production of Estriol 323
Angiotensin II, Effect on Steroids 432
– Renin Release 157
Anorexia Nervosa, Reduced Cellular Glucocorticoid Receptors 619
Antagonists of Glucocorticoid Action 252
Anterior Pituitary Responsiveness to Hypothalamic Hormones 482
Apolipoprotein E, Hypertriglyceridemia 303
Arginine, Effect on Pancreatic Hormones in Goose 122
– Glucose and Insulin Response 127
Arginin Infusion, Glucagon Response in Diabetics 69
Arginine Infusion Test, Somatostatin Response 71
– Portal Vein Insulin Response 448
Artificial Endocrine Pancreas 505
Aspartate, Transamination in Islet Homogenate 405
Atherosclerosis, Hyperlipoproteinemia 415
– Insulin-Like Growth Factors 409
Atropine, Prolactin 147

B
B Cell, α Adrenergic Stimulation, Nutritional State 568
Benzo(a)Pyrene, Glomerulopressin 667
Beta-Adrenergic Blockade
– – – Effects on IRI, FFA and IRG 18
Beta-Adrenoceptors
– – Adrenalectomy 207
– – Hyperkalemia 299
– – Lipolysis 257
Beta-Blockade
– – β_1-Selective, Metabolic and Hormonal Response 583
– – Non-Selective, Metabolic and Hormonal Response 583
Betahydroxybutyrate, Somatostatin 512
Big Plasma Glucagon (BPG), Type II Diabetics 69
Biostator, Glycolytic Intermediates 233
– Pre-Programmed Insulin Infusion 505
α-Blockade and Isoproterol
– – – Effect in Thyroxine-Treated Dogs 101
β-Blockade
– β_1-Selective, Metabolic and Hormonal Response 583
– Non-Selective, Metabolic and Hormonal Response 583
Blood Glucose, Protein-Supplemented Fasting 240
Bone in Vitro, Cimetidine 558
– Sulfonylurea
– Treated Diabetics 98
Breast, Influence of Three Natural Estrogens 598
Bromocriptine, Glucose Tolerance by Acromegaly 57
Brown Adipose Tissue, Na^+,K^+-ATPase 261
– Fat, Rats 107
Burn Toxin, Isolated Hepatocytes 80

C
Calcitonin, X-Linked Hypophosphatemia 216
– Radioimmunoassay 213
Calcitonins, Eel and Salmon, Pagetic Patients 559
Calcium Activation, Glycerol Phosphate Dehydrogenase 678
Calcium, α-Adrenergic Stimulation 133
– -Binding Protein, Magnesium Deficiency 379
– Insulin Inhibition by Corticosterone 612
– Total and Ionized, Hyperparathyroidism 443
– Vitamin D 649
Calmodulin-Binding Protein 265
Calmodulin, Escherichia Coli 265
Cancer Hypercalcaemia, Tumour Marker 213
– Screening, Hypercalcitoninaemia 213
Carbonic Anhydrase, Sulfonamides 670
Cardiac Output (CO) 207
Casein Synthesis, Mammary Gland, Effect of IBMX on Prolactin Action 195
Castration, Prepubertal, Structural Development of Muscles 191
Catalase, Diabetes 77
Catecholamines, Adrenalectomy 207
– Pigeon, Propranolol 606
Catecholestrogens, Body Weight 142
– 4-Hydroxyestrone 4-Methyl Ether 376
Cerebrospinal Fluid, Electrolytes, Hyperprolactinemia 557
Chicken, Lipid Metabolism, Influence of Sex Hormones 183
Cholecalciferol 503
Cholecystokinin, Glucagon Secretion 529
Cholesterol, Lipid Metabolism in Chicken 183
Cholinergic Stimulation, Gastro-Intestinal Polypeptides 529

Cimetidine, Bone in Vitro 558
– Prolactin 147, 616
Cirrhosis, Hormonal and Metabolic Changes 34
Clofibrate, Insulin Release from Isolated Islets 276
Clomiphene, Hypophyseal-Testicular Response at Median High Altitude 679
Clonidine, Lipolysis 257
CNS, Somatostatin in Starvation 392
Cold Acclimatized Rats, Norepinephrine, Serotonin 107
Colostrum, Placental Lactogen 441
Corticosterone, 2-Deoxy-D-Glucose 94
– Effects of Starvation and Age 532
– Hypoaldosteronism 432
– Inhibition of Insulin 612
– Pigeon, Propranolol 606
Cortisol, Beta Blockade 583
– Creatinine Ratio, Pregnancy 279
– Glucagon Administration 386
– Hepatic Cirrhosis 34
Cortisol in Man, Timing of Standard Meal 106
– Nycthemeral Rhythms in the Ram 320
– Pregnancy, β-Receptor Agonist Treatment 198
– Response to Synthetic Human Insulin 109
Counter-Regulatory Hormones 307
– – Synthetic Human Insulin 109
C-Peptide, Acetylsalicylic Acid 508
– Plasma, Insulin Antibodies 227
– Polycystic Ovaries 284
– Pregnant Diabetics 516
– Response to Glucagon 112
– Synthetic Human Insulin 109
– Value after 6 min, Glucagon Injection 675
Cyclic AMP, Mammary Gland, Effect of IBMX on Prolactin Action 195
– – Response to Isoprenaline 207
– GMP Levels, Hyperthermia 223
– – Mammary Gland, Effect of IBMX on Prolactin Action 195

D
Danazol, Binding of Progesterone and Androgens in Human Uterine Receptors 167
– Treatment, Pubertal Gynecomastia 653
DDAVP (1-Deamino-8-D-Arginine Vasopressin), Effects of Thirsting 385
Dehydroepiandrosterone, In Vitro Production of Estriol 323
Dental Caries in Diabetic Rats, Sodium Dichloroacetate 438
2-Deoxy-D-Glucose, Corticosterone and Aldosterone 94
2-Deoxyglucose, Glucose Sensitivity of B Cell 552
Desferrioxamine Treatment, Pituitary Gonadotropin Response 55
(^{3}H)-Dexamethasone-Binding, Anorexia Nervosa 619
Dexamethasone, Steroidogenesis, cAMP, cGMP 547
Diabetic Leukocytes, Phagocytosis 445
Diabetic Mouse, Glycogen Synthase 130
– Pregnancy, β-Receptor Agonist Treatment 198
– Rat, Androgen Binding 237
Diabetics, Human, Peroxide Metabolism Enzymes 77
– Insulin and Ceruletide 329
– Insulin-Dependent, Oral Contraception 61
Diabetics,
– Non-Insulin-Dependent, Response to Glucagon i.v. 112
Diabetic Stability, Insulin Antibodies 227
Diabetics, Uric Acid Levels, Propranolol 220
Diabetes, Control of, Pregnancy 516
– Experimental, Peroxide Metabolism Enzymes 77
– Hyperlipoproteinemia 415
– in KK Mice, Overall Insulin Sensitivity 14
– Insulin Receptors 623
– Mellitus, Effect of SRIF on Ketonuria 512
– – Glycolytic Intermediates 233
– – 25-Hydroxycholecalciferol 98
– – Insulin Clearance by Rat Lung 8
– – Magnesium Levels in Plasma, Erythrocyte and Urine 161
Diabetes Mellitus, New Diagnostic Criteria 626
– – Non-Insulin Dependent, Prolactin Response to Metoclopramide 165
– – Pre-Programmed Insulin Infusion 505
– – Type II, Insulin Receptors 561
– Ornithine Decarboxylase Activity 172
– Phospholipids 638
– Pituitary-Testicular Axis 479
– Plasma Amino Acids 398
– Starvation and Age, Effects on Glycoregulation 532
Diagnostic Criteria, New, Diabetes Mellitus 626
Diazoxide, Insulin Receptors 623
– Insulin Secretion 351
Dichloroacetate, Dental Caries in Diabetic Rats 438
– Lipolysis in Dogs 102
Dietary Arginine, Glucose Tolerance 471
Dihydroergocristine, Prolactin Release to Cimetidine 616
1,25-Dihydroxycholecalciferol 670
1,25-Dihydroxyvitamin D, Serum, Osteopenia 271
3,5-Diiodothyronine Secretion 46
Diphenhydramine, Prolactin 147
Diurnal Plasma Glucose Profile 1
– Serum IRI Profile 1
DNA Synthesis, Pituitary Gland 150
Dogs, Nephrectomized, Insulin and β Receptor Modulation 299
Dopamine, Prolactin 147
Dopaminergic Excitatory and Inhibitory Systems, Nelson's Syndrome 681
^{3}H-Dopamine Uptake, PRL-Secreting Adenoma 310
Duck, Beta Adrenergic Blockade 18

E
Electrolytes in Cerebrospinal Fluid, Hyperprolactinemia 557
Embryonic Development, Vitamin D 649
Endotoxin, Glucagon and Insulin Receptors 468
Enterocytes, Vitamin D 649
Epididymal Fat Cyclic GMP Levels, Hyperthermia 223
Epinephrine Infusion, Protein-Supplemented Fasting 240
– Lipolysis 257
Equilibrium Binding Parameters 227
Erythrocyte Insulin Receptors, Chronic Liver Disease 50
– – – Obese Children 494
Erythrocytes, Glucagon Binding 65
– Insulin Receptors 561
Escherichia Coli, Calmodulin 265
Esophageal Lower Sphincter, Effect of Somatostatin 26
Estradiol, Folate-Transport 646
– Lipid Metabolism in Chicken 183
– Mammary Gland 598
17β-Estradiol, In Vitro Production of Estriol 323
Estriol, Mammary Gland 598
– In Vitro Production 323
Estrogen, In Situ Uptake 209
– Receptors, Pituitary and Uterus 209
Estrogens, Esterified, Lipid Metabolism, Sex Steroids 602
Estrogen Therapy, Dissociation of LH and FSH 154
Estrone, Mammary Gland 598
Estrous Cycle of Dogs, Metabolic Changes 4
Ethanol-cytochrome P-450 332
Ethanol, Hyperglycaemia, Insulin Inhibition 361
Ethinyl Estradiol, Insulin-Dependent Diabetics 61

F
Fat Cells, Human, Adenylate Cyclase 556
– Cell Size, Alpha 2 Adrenoceptors 257
– Diet, Adenylate Cyclase Activity 117
Fatty Acid Infusion, Pancreatic Hormone Secretion 499
– Acids, Ethanol-Induced Hyperglycaemia 361
– – Non-Esterified, Acetylsalicylic Acid 508
Feeding, GH Release in Goats 425
Fetal Tissue Levels of Glucose and Glycogen 658
Foetus, Effects of Starvation on Plasma Composition 364
Folate-Transport, Estradiol 646
Free Fatty Acids, Beta Adrenergic Blockade 18
– – – Beta-Receptor Agonist Treatment 198
– – – Estrous Cycle of Dogs 4
– – – Plasma, Beta Blockade 583
– – – Protein-Supplemented Fasting 240

G
Galli-Mainini Reaction, Gonadotropic Hormones, TSH 617
Ganglioside and Galactolipid Accumulation, Hypothyroidism 225
Gastrectomy, Partial, Billroth Type II and Type I, Glucagon-Like Polypeptides 642
Gastric Inhibitory Polypeptide, Gestational Diabetes 335
– – – Glucagon Secretion 529
– Resection, Pancreatic Polypeptide 613
Gastrin, Gestational Diabetes 335
– Serum, Effect of Somatostatin 26
Geese, Subtotal Pancreatectomy 452
Gestational Diabetes, Gastro-Entero-Pancreatic Hormones 335
Gestation, Late, Hepatic Lipogenesis, Prolactin 614
Glicentin 642
Glomerulopressin, Novobiocin, Benzo(a)Pyrene 667
– Rat Liver 539
Glucagon, Acetylcholine, Cholinergic Derivate 356
– Administration, Cortisol, ACTH 386

Glucagon
– B Cell Response 112
– Beta Blockade 583
– Binding, Human Blood Cells 65
– – in Rat Fat Cells, Adrenalectomy 162
– Effects of Amino-Acids 122
– Effects of Starvation and Age in ob/ob Mice 532
– Gestational Diabetes 335
– Glomerulopressin, Rat Liver 539
– Glucose and Insulin Response 127
– Glucose Tolerance Test in Acromegaly 57
– Hepatic Cirrhosis 34
– $(^3H)H_2O$ Incorporation into Glycerolipids in Hepatocytes 248
– Immunoreactive, Partial Gastrectomy 642
– Injection, C-Peptide Value 675
– Insulin Therapy 452
– Intestinal Phase of a Meal 169
Glucagon-Like Immunoreactants, Partial Gastrectomy 642
Glucagon, Metabolic Action, Verapamil 611
– Pancreatic, Acetylsalicylic Acid 508
– – Beta Adrenergic Blockade 18
– Plasma, α Adrenergic Stimulation 568
– Protein-Supplemented Fasting 240
– Receptors, Endotoxin 468
– Release, Histaminergic Antagonists 496
– Response in Diabetics during Arginin Stimulation 69
– Secretion, Fatty Acid Infusion 499
– – Gastro-Intestinal Polypeptides 529
– Somatostatin 512
– Stability on Storage for Radioiodination Purposes 384
Glucocorticoid Hormones, Tyrosin Aminotransferase 252
– Receptors, Anorexia Nervosa 619
Glucocorticoids, Insulin Secretion 287
Gluconeogenesis, Hypothyroid Rat 658
Glucose, A Cell Function in Diabetic Geese 452
– B Cell Response 112
– Blood, Beta Blockade 583
– – Steady State 14
– – Thymosin F_5 330
– Estrous Cycle of Dogs 4
– Ethanol-Induced Hyperglycaemia 361
– Free Fatty Acids 568
– Hepatic Cirrhosis 34
– Infusion, Acetylsalicylic Acid 508
– Insulin Administration 631
– -Insulin, Partial Pancreas Transplantation 521
– Intolerance, Acromegaly, Bromocriptine 57
– Kinetics, Chronically Hyperinsulinemic Rat 498
– Load, Renal Compensatory Hypertrophy 487
– Metabolism, Low Insulin Responders 564
– Oxidation, Phospholipids 638
– Plasma, Beta Adrenergic Blockade 18
– – Sulfonylurea 1
– Pregnancy, β-Receptor Agonist Treatment 198
– Sensitivity of B Cell, 2-Deoxyglucose 552
– Tolerance, Acetylsalicylic Acid 508
– – Dietary Arginine 471
– – Hepatic Cirrhosis 34
– – Prolactin 307
– – Pulmonary Tuberculosis 50
– – Test, Glucagon 452
– – – Oral, 75 g 626
– – – – Glucagon-Like Polypeptides 642
– – – – Pancreas Transplantation 521
Glucose A Cell Function in Diabetic Geese
– Transport Phospholipids 638
– Turnover 14
D-Glucose, Vitamin D 649
Glucuronides, Novobiocin, Benzo(a)Pyrene 667
Glutamate, Deamination in Islet Homogenates 405
– Dehydrogenase, Pancreatic Islets 405
L-Glutamine, Insulin Release 459
Glutamine Synthetase, Pregnancy, Lactation 419
Glycerol Phosphate Dehydrogenase, Calcium Activation 678
Glycogen, Altered Thyroid States 179
– Burn Toxin 80
– Hypothyroid Rat 658
Glycogen, Muscle, Beta Blockade 583
Glycogenolysis, Mitochondria 133
Glycogenosis, Hepatic, Postheparin Plasma Lipase 555
Glycogen Phosphorylase, Altered Thyroid States 179
– – Diabetic Mouse 130
– Synthase, Diabetic Mouse 130
– – Altered Thyroid States 179
Glycolytic Intermediates, Diabetes Mellitus 233
GnRH-Infusion, Testosterone Response 543
Goat, Growth Hormone Release 425
Gonadotropic Hormones, TSH, Galli-Mainini Reaction 617
Gonadotropin Response, Desferrioxamine Treatment 55
Gonadotropins, Body Weight 142
– Danazol Treatment 653
– Diabetes 479
– FSH, LH, Opioid Peptides 312
Goose, Effects of Amino-Acids on Pancreatic Hormones 122
Graves' Disease, Increased "Killer" Cells 56
Growth Hormone, Acetylsalicylic Acid 508
– – Beta Blockade 583
– – Binding, Rat Liver 422
– – Bromocriptine Treatment 57
– – 20,000-Dalton Variant, Somatomedin Activity 440
– – Glucose-Induced Paradoxical Increase 105
– – Human, Binding to Liver Plasma Membrane 138
– – Hypothyroid Rat 658
– – Insulin Receptor Affinity 342
– – Metoclopramide 103
– – Receptor, Rat Liver 422
– – Release in Goats 425
– – Response to Synthetic Human Insulin 109
– – – to TRH, Liver Cirrhosis 482
– – Somatostatin 512
– – Vitamin B_6 580
– Starvation in Pregnancy 364
GSH, Rat Adipocytes 634
GSSG, Rat Adipocytes 634
Guinea Pig, Somatostatin in Starvation 245
Gut GLI, Effects of Amino-Acids 122
– Human, Somatostatin-28 Like Immunoreactivity 500
Gynecomastia, Pubertal, Danazol Treatment 653

H
Haemosiderosis 55
Haloperidol, DNA Synthesis in Pituitary Gland 150
HbA_1, Diabetic Retinopathy 389
Heart, LPL During Acute Myocardial Ischemia 85
Hemoglobin AIC, Diabetes Mellitus 626
Hepatic Binding Sites for Growth Hormone 422
– Glucose Output 14
– Lipogenesis, Late Gestationon, Prolactin 614
– Nuclear T_3-Receptors 224
Hepatocytes, Isolated, Burn Toxin 80
– – $(^3H)H_2O$ Incorporation 248
– – Internalisation of (^{125}I) Insulin 537
Hepatoma Cells, Tyrosine Aminotransferase 252
High Density Lipoproteins (HDL), Oral Contraception in Diabetics 61
– -Performance Liquid Chromatography, TSH 429
Histaminergic Antagonists, Pancreatic Hormone Release 496
K Homeostasis, Nephrectomized Dogs 299
H_2O_2, Rat Adipocytes 634
Hormonal Sensitivity of Hepatocytes, Burn Toxin 80
Hormones, Effect on Lipoprotein Lipase 189
– Sensitivity, Plasma Amino Acids 398
25-Hydroxycholecalciferol, Sulfonylurea Treated Diabetics 98
4-Hydroxyestrogens, 4-Hydroxyestrone 4-Methyl Ether RiA 376
4-Hydroxyestrone 4-Methyl Ether, Radioimmunoassay 376
Hydroxyproline, Sulfonylurea Treated Diabetics 98
Hypercalcemia, Sulfonamides 670
Hypercortisolism, Anorexia Nervosa 619
Hyperglycemia, Adrenal Medullectomy 575
– Hepatic Cirrhosis 34
– Nutritional Factors 487
Hyperinsulinemic Rat, Glucose Kinetics 498
Hyperinsulinism, Adrenal Medullectomy 575
– Nutritional Factors 487
Hyperkalemia, Glucose-Induced, Upright Posture, Mineralocorticoid 551
– Insulin, β-Receptor Modulation 299
Hyperlipoproteinemia, 1-^{14}C-Acetate Incorporation in Liver 415
Hypernatriuria, Nutritional Factors 487
Hyperparathyroidism, Total and Ionized Serum Calcium 443
Hyperprolactinemia, Electrolytes in Cerebrospinal Fluid 557
Hypertensive Rats, Mineralocorticoids 166
Hyperthermia, Cyclic-GMP Levels 223
Hyperthyroidism, Glycogen and Glycogen Enzymes 179
Hypertriglyceridemia, Apolipoprotein E 303
Hyp Mice, Response to Calcitonin 216
Hypoaldosteronism, Angiotensin II Effect on Steroids 432
Hypocalcemia, Calcitonin 216
Hypoglycemia, Mixed Meal Tolerance Test 281
Hypophosphatemia, Calcitonin 216
– Glucagon-Induced 674
– Insulin Release 674
Hypophyseal-Testicular Function, Median High Altitude 679
Hypophysectomy, Hypersensitivity of Adrenal Cells 620
Hypothalamic-Pituitary Regulation, Lithium Treatment 92
Hypothyreosis, Essential Amino Acids 596
Hypothyroidism, Glycogen and Glycogen Enzymes 179
– Plasma Amino Acids 398

Hypothyroid Rats, Ganglioside and Galactolipid Accumulation 225
– – GH Treatment 658
– – Maternal 658

I
Immunohistochemistry, Pancreatic Somatostatin 292
Indomethacin Treatment, Aldosterone Release by Angiotensin II 682
Infants of Diabetic Mothers, C-Peptide Levels 516
Insulin, A Cell Function in Diabetic Geese 452
– Acetylcholine, Cholinergic Derivate 356
– Acetylsalicylic Acid 508
– Action 638
– – Rat Adipocytes 634
– Antibodies, Insulin Treatment, Stability 227
– Beta Blockade 583
– Binding, Kidney Membranes 345
– – Specificity, Rat Pancreatic Islets 464
– Clearance, Perfused Rat Lung 8
– Degradation, Kidney Membranes 345
– -Degrading Process, Heat-Inactivation 275
– Dietary Arginine 471
– Effects of Starvation and Age in ob/ob Mice 532
– Effect on Protein Metabolism in Muscle 30
– Exogenous, Training 395
– Gestational Diabetes 335
– Glomerulopressin, Rat Liver 539
– Hepatic Cirrhosis 34
– $(^3H)H_2O$ Incorporation into Glycerolipids in Hepatocytes 248
– Hyperkalemia 299
– Immunoreactive, Partial Gastrectomy 642
– Induced Hypoglycemia, Hormonal Responses 109
– Infusion, Pre-Programmed, Biostator 505
– Inhibition by Corticosterone, Calcium 612
– Inhibition of Ethanol-Induced Hyperglycaemia 361
– Intestinal Phase of a Meal 169
– -Like Growth Factors, Smooth Muscle Cells 409
– – Substances, Pancreatic Juice 383
– Membrane Receptors, Heat-Inactivation 275
– Milk Intake 631
Insulinogenic Reflex 521
Insulin, Pancreatic Juice
– Plasma, Beta Adrenergic Blockade 18
– – Steady State 14

No. 12 (December 1982) page 623–684

Fukumoto, Y., K. Ichihara, K. Nonaka, S. Tarui
Comparison of Diurnal Serum Insulin Levels during Short Term Treatments with Sulfonylurea and with Insulin in Non-Insulin Dependent Diabetes 1

Renauld Aurora, Rita C. Sverdilk, Alicia Agüero, R.R. Rodríguez, V.G. Foglia
Serum Insulin, Free Fatty Acids and Blood Sugar during the Estrous Cycle of Dogs 4

Stubbs, W.A., D.M. Kelly, I. Morgan, K.G.M.M. Alberti
Insulin Clearance by Perfused Rat Lung 8

Yagihashi, S., A. Tokui, H. Kashiwamura, S. Takagi, K. Imamura
In Vivo Effect of Methylcobalamin on the Peripheral Nerve Structure in Streptozotocin Diabetic Rats 10

Taketomi, S., H. Ikeda, E. Ishikawa, H. Iwatsuka
Determination of Overall Insulin Sensitivity in Diabetic Mice, KK 14

Gross, R., P. Mialhe
Beta Adrenergic Receptors Mediated Effects, Insulin and Plasma Free Fatty Acids in the Duck 18

Greco, A.V., A. Bianco, L. Altomonte, L. D'Acquarica, G. Ghirlanda
Effect of Somatostatin on Lower Esophageal Sphincter (LES) Pressure and Serum Gastrin in Normal and Achalasic Subjects 26

Carlquist, M., T.J. McDonald, V.L.W. Go, D. Bataille, C. Johansson, V. Mutt
Isolation and Amino Acid Composition of Human Vaso-active Intestinal Polypeptide (VIP) 28

Ward, L.C., K.N. Boorman, P.J. Buttery
Amino Acid Supply and Protein Metabolism in Isolated Perfused Rat Skeletal Muscle 30

Johnston, D.G., K.G.M.M. Alberti, C. Binder, O.K. Faber, R. Wright, H. Orskov
Hormonal and Metabolic Changes in Hepatic Cirrhosis . 34

Lichtenberg, V., V.G. Pahnke, D. Graesslin, G. Bettendorf
Biological and Immunological Potencies of Lutropin (LH) in Human Serum: Comparative Studies Using Different Standard Preparations 39

Laurberg, P.
Radioimmunological Measurements of 3,5-Diiodothyronine in Hydrolysate and in Effluent from Perfused Canine Thyroids 46

Seth, S.C., M.S. Parmar, A.S. Saini, Harbans Lal
Glucose Tolerance in Pulmonary Tuberculosis 50

Fujita, S., T. Takimoto, M. Kobayashi, Y. Shigeta, M. Hoshi
Erythrocyte Insulin Receptors in Patients with Chronic Liver Diseases 51

Burch, L., J.R. Scaife, H. Galbraith
Effect of Anabolic Steroids on Lipogenic and Lipolytic Enzymes in Sheep Tissues 52

Horst, H.J., K.-U. Adam
Influence of Melatonin on the Human Prostatic Androgen Metabolism in Vitro 54

Waters, A.K.
Improved Pituitary Gonadotrophin Response in Adult Transfusional Haemosiderosis Following Desferrioxamine Treatment 55

Pozzilli, P., D. Andreani
Increased 'Killer' Cells in Graves' Disease 56

Chiba, T., K. Chihara, N. Minamitani, B. Goto, S. Kadowaki, T. Taminato, S. Matsukura, T. Fujita
Effect of Long Term Bromocriptine on Glucose Intolerance in Acromegaly 57

Rådberg, T., A. Gustafson, A. Skryten, Kirsten Karlsson
Oral Contraception in Diabetic Women 61

van Hinsbergh, V.W.M., W.J. Nooijen, H.J.M. Kempen
Glucagon Receptors: Are They Present on Human Blood Cells? 65

von Schenck, H., Barbara Vasquez, R.H. Unger
Lack of a "Big Plasma Glucagon" Response during Arginine Stimulation of Glucagon Secretion 69

Saito, H., S. Saito
Plasma Somatostatin in Normal Subjects and in Various Diseases: Increased Levels in Somatostatin-Producing Tumors 71

Matkovics, B., S.J. Varga, L. Szabó, H. Witas
The Effect of Diabetes on the Activities of the Peroxide Metabolism Enzymes 77

Schölmerich, J., B. Kremer, K. Schmidt, H. Setyadharma, I.E. Richter, G.A. Schoenenberger
Effects of Peptide Hormones on Urea- and Glycogen-Synthesis of Isolated Hepatocytes and the Influence of a Toxic Factor from Burnt Mouse and Human Skin . 80

Vik-Mo, H., P. Moen, O.D. Mjøs
Myocardial Lipoprotein Lipase Activity during Acute Myocardial Ischemia in Dogs 85

Goldberg, Rita, N. Conforti, I.M. Spitz
The Effect of Methionine Enkephalin on Prolactin and Luteinizing Hormone Levels in Intact and Castrated Rats 89

Bagchi, N., T.R. Brown, R.E. Mack
Effect of Chronic Lithium Treatment on Hypothalamic-Pituitary Regulation of Thyroid Function ... 92

Chevrier, C., N. Hammiche, R. Brudieux
Effects of 2-Deoxy-D-Glucose on Plasma and Adrenal Concentrations of Corticosterone and Aldosterone in Standard Diet Fed and Potassium Loaded Rats 94

Štěpán, J., H. Wilczek, V. Justová, T. Havránek, F. Škrha, Z. Wildtová, J. Formánková, V. Pacovský
Plasma 25-Hydroxycholecalciferol in Oral Sulfonylurea Treated Diabetes Mellitus 98

Renauld, Aurora, R.C. Sverdlik, R.R. Rodriguez
Blood Concentrations of Glucose, Insulin and Free Fatty Acids in Shortly Thyroxine-Treated Dogs: Effects of Alpha-Blockade and Isoproterenol 101

Diamond, M.P., J.H. Suhrer Jr., P.E. Williams, A.D. Cherrington
Dichloroacetate: Direct Inhibitor of Lipolysis in the Conscious Dog 102

Chiodera, P., V. Coiro, G. Zanardi, R. Volpi, G. Valenti, U. Butturini
Effect of Metoclopramide on Serum GH Levels in Normal Women 103

Rado, J.P.
Glucose-induced Paradoxical Increase in HGH with Potentiated Decrease in Serum Potassium in Chronic Renal Failure 105

Sandra, A., D.J. Fyler
The Effect of Membrane Phospholipid Modification on Insulin Action in Adipocytes from Normal and Streptozotocin-Induced Diabetic Rats 638

Tamburrano, G., M. Mauceri, A. Lala, F. Tonelli, F. Leonetti, D. Andreani
Plasma Levels of Glucagon-Like Polypeptides in Gastrectomized Patients Transformed from Billroth II into Billroth I 642

Eilam, Y., M. Ariel, M. Jablonska, N. Grossowicz
Effects of Estradiol on Uptake of Folate in Isolated Intestinal Epithelial Cells 646

Sing Cross, Heide, M. Peterlik
Differential Response of Enterocytes to Vitamin D during Embryonic Development: Induction of Intestinal Inorganic Phosphate, D-Glucose and Calcium Uptake 649

Beck, W., P. Stubbe
Endocrinological Studies of the Hypothalamo-Pituitary Gonadal Axis during Danazol Treatment in Pubertal Boys with Marked Gynecomastia 653

Hendrich, C.E., V.T. Wiedmeier, S.P. Porterfield
Utilization of Alanine by Hypothyroid and Growth Hormone Treated Hypothyroid Rats, their Fetuses and Progeny 658

Arany, E., E. del Castillo, J. Uranga
Some Factors Affecting Glomerulopressin Production by Perfused Rat Liver 667

Pierce, W.M., Jr., M.D. Lineberry, L.C. Waite
Effect of Sulfonamides on the Hypercalcemic Response to Vitamin D 670

Massara, F., M. Tagliabue, V. Martina, G.M. Molinatti
Glucagon-Induced Hypophosphatemia is Mediated by Insulin 674

Kølendorf, K., B. Thorsteinsson, P. Billesbølle, S. Poulsen
Correlation between the Routine 6-Min. C-Peptide Value and the AUC after I.V. Glucagon Injection in NIDDM Patients 675

Matsui, H., O. Wada, S. Manabe, T. Ono
Abnormal Responses of Glucose, Insulin and Glucagon in Blood to I.V. Glucose Load in Methyl Iodide-Treated Rabbits 676

MacDonald, M.J.
Calcium Activation of Pancreatic Islet Mitochondrial Glycerol Phosphate Dehydrogenase 678

Garmendia, F., H. Valdivia, O. Castillo, N. Ugarte, A. Garmendia
Hypothalamo-Hypophyso-Gonadal Response to Clomiphene Citrate at Median High Altitude 679

Nishida, S., M. Matsuki, M. Horino, M. Endoh, K. Kakita, A. Tenku, H. Oyama
Central Dopaminergic Excitatory and Inhibitory Systems in Nelson's Syndrome 681

Vierhapper, H., W. Waldhäusl, J. Jörg, P. Nowotny
Unchanged Angiotensin II-Induced Release of Aldosterone During Infusion of Prostaglandin E_2 in Indomethacin-Treated Healthy Subjects 682
